

School of Nursing

MSN in

NURSING LEADERSHIP & ADMINISTRATION

Degree Program

The Master's of Science in Nursing (MSN) at New Mexico State University provides graduate level education & training in the field of nursing leadership & administration. Students enrolled in the MSN in Nursing Leadership & Administration acquire the knowledge & experience to assume leadership positions in a wide range of health care systems & fulfill the fundamental requirements to secure middle & top-level administrative positions in health care agencies.

WHY CHOOSE NMSU?

Distance Education

Although many of our students live in southern New Mexico, our distance education format allows nurses to earn their MSN degree in their hometown while continuing to practice.

Full Time & Part Time Options

Designed for working professionals, our full time & part time degree plan options allow you to balance your studies with your professional & personal responsibilities. Didactic courses are delivered in a flexible, mostly asynchronous format. Field experiences can be completed in your work setting.

Expert Faculty

Learn from dedicated faculty members who have extensive experience in evidence based practice, quality improvement, as well as nursing leadership & administration.

Career Options

Graduates of our program are equipped to take on managerial & leadership roles in a variety of settings including healthcare organizations, government agencies, non-profits & academic institutions..
