

Calculating your GPA

Navigate to [College GPA Calculator \(collegesimply.com\)](https://collegesimply.com)

Type in the following required prerequisite courses. You will have to add a course after you add in 4 classes. Calculate all classes under semester 1. Please do not add a semester.

- General Chemistry
- Anatomy (A&P I)
- Physiology (A&P II)
- Statistics
- Pharmacology
- Pathophysiology

*Biochemistry (recommended but optional)

*Microbiology (Optional)

Choose the grade and credit hour from your transcripts

Once the boxes are complete, it will calculate your hard science GPA

Please save a PDF or screenshot and upload it into the miscellaneous documents on your application.

*If your grade is below a "B" in either of these classes, please do not add it to your calculator.

Semester 1		
General Chemistry	B	3
Anatomy	A	3
Physiology	B	3
Statistics	A	3
Pharmacology	A	3
Pathophysiology	B	3
Course 7 Name	Grade	Credits
