

Calculating your GPA

Go to <https://www.collegesimply.com/gpa-calculator/college-gpa-calculator/>

Type in the following required prerequisite courses using the “Add Course” button

Biology

General Chemistry

Anatomy (or A&P I)

Physiology (or A&P II)

Statistics

Pharmacology

Pathophysiology

Biochemistry (recommended but optional)

Microbiology (Optional)

Choose the grade and credits from your transcripts

Once all boxes are filled out, it will calculate your science GPA

Please print and save to PDF. This will need to be uploaded to Slate with your other documentation. You can use miscellaneous as the document type.
